

June 1, 2025

To Whom It May Concern:

Regarding Build America, Buy America Act (BABAA) compliance for Gibson Stainless & Specialty, Inc.'s (GSS) products, the following is provided:

The BABAA (Pub. L. No. 117-58, §§ 70901-52), enacted under Division G, Title IX of the Infrastructure Investment and Jobs Act (IIJA) of November 15, 2021, and effective May 14, 2022, applies a Buy America requirement to federally-funded, public infrastructure projects. BABAA applies to three categories of products: Iron and Steel Products; Manufactured Items; and Construction Materials. GSS products qualify as Iron and Steel Products. Under BABAA, Iron and Steel Products are "produced in the United States" when all manufacturing processes, from initial melting through the application of coatings, occurs in the U.S. That is, the following GSS products meet all requirements of BABAA:

Conduit	Hubs	U-Bolt Plates
Couplings	Grounding Hubs	Grounding Bushings
Elbows	Locknuts	Insulated Bushings
Nipples	Grounding Locknuts	Threaded Rod
Three-Piece Couplings	Liquidtight Connectors	Unthreaded Rod
Caps	Liquidtight Flexible Metal	Strut
Floor Flanges	Conduit (LFMC)	Spring Nuts
Conduit Bodies	Face Reducing Bushings	Channel Nuts
Pulling Elbows	Enlarger Bushings	Post Bases
Device Boxes	Socket Plugs	Square Washers
Device Box Covers	Drain Plugs	90° Angles
While-In-Use Covers	One Hole Straps	Strut Plates
GUA Conduit Bodies	Clamp Back Spacers	Ground Rod
EYS Sealing Fittings	Two Hole Straps	Cord Grip Connectors
UNF, UNY Fittings	Split Ring Clamps	(without mesh)
Chase Nipples	2001 Beam Clamp	

The above products are 100% Made In USA, from melt to final assembly.

Furthermore, the primary components of the following GSS products meet the BABAA requirements; however, the final assembly contains a hardware item that is a direct import:

Conduit Hangers	2003, 2004 Beam Clamps	Right Angle Beam Clamps
U-Bolts, P/N 0050 - 0400	2100-series Beam Clamps	Ground Rod Clamps
Right Angle Clamps	Junior Top Beam Clamps	Two Piece Clamps
Parallel Clamps		

The bodies of the above products are 100% Made In USA, from melt to final assembly, but the final assembly contains a hardware component that is a direct import.

Any questions can be directed to the undersigned at (724) 838-8320. Thank you.

Sincerely,

Daniel R. Weimer
