# *Dedicated to Quality, Committed to American Manufacturing*

As an American-owned company dedicated to quality and transparency across all of its work, Gibson Stainless & Specialty is proud to stand behind its “Made in USA” ethos. We make qualified claims, ensuring that we are very clear in terms of our products’ country of origin. We will not state “Made in USA” unless the product is 100% Made in USA (manufactured in the United States, from melt to final assembly, on every component). If there is an imported component, or a product itself is a direct import, we make it known.

We utilize American steel and domestic supply chains. Meeting standards such as “Buy American” and “Build America, Buy America”, our primary product lines are, and have always been, poured in American foundries utilizing tooling, patterns, and dies that we own. Machining, finishing, inspection, assembly, and packaging are done in-house by a team of dedicated Gibson Stainless employees.

Every product’s country of origin can be found in our catalog, on our website, and in this guide. We indicate which products are 100% Made in the USA. We also show which products have a foreign component and which ones are direct imports.

In order to confidently state the country of origin of our products, it is our policy to contact any and all of our material suppliers to obtain a certificate stating the origin. If a country of origin certificate is needed, we are happy to provide one. We are committed to providing American-made products for the electrical industry and will continue our efforts to manufacture products that are 100% Made in USA.

## INDUSTRIES SERVED

Food & Beverage  
Wastewater Treatment  
Pulp & Paper  
Petrochemical  
Chemical Processing  
Infrastructure  
Coastal & Marine

Various industries and projects now require sourcing products with a specific country of origin or products that comply with sourcing regulations. Please visit our website to learn more about common regulations such as the Build America, Buy America Act (BABAA), the Buy American Act, the Buy America provision, and The American Iron and Steel (AIS) requirement.

# Country of Origin Guide

---

## 100% Made in USA

*Product is 100% made in the United States, from melt to final assembly.*

- Conduit
- Elbows, Nipples, Couplings
- Conduit Bodies
- Device Boxes & Covers
- While-In-Use Cover
- Three-Piece Couplings
- Conduit Caps
- Floor Flanges
- Pulling Elbows
- Enlarger Bushings
- Chase Nipples
- One Hole Straps
- Two Hole Straps
- Clamp Back Spacers
- 1/4" Beam Clamp (2001)
- Strut & Accessories
  - Strut
  - Post Bases
  - Spring Nuts
  - Square Washers
  - 90° Angles
  - Flat Plates
  - Channel Nuts
- Hazardous Location Fittings
  - GUA Series Conduit Bodies
  - EYS Sealing Fittings
  - Unions (UNF, UNY)
- Threaded Rod
- Unthreaded Rod
- Socket Plugs
- U-Bolt Plates
- Split Ring Clamps
- Split Ring Extension Rods
- Split Ring Mounting Plate
- Face Reducing Bushings
- Bushings (Insulated)
- Grounded Bushings
- Cord Grip Connectors (without mesh)
- Liquidtight Flexible Metal Conduit
- Liquidtight Connectors (Standard and Grounding)
- Hubs (Standard and Grounding)
- Locknuts (Standard and Grounding)
- Drain Plugs
- Grounding Rods

---

## Product May Contain Imported Component

*Product is made in the United States, but may contain an imported component. The cost of the components manufactured in the United States exceeds 50% of the cost of all components.*

- Hangers (bolt, hex nut)
- Two Piece Clamps (bolt, hex nut)
- Parallel Clamps (bolt, hex nut)
- Ground Rod Clamps (bolt)
- Right Angle Clamps (hex nuts)
- Right Angle Beam Clamps (hex nuts)
- 2000 Series Beam Clamps – part numbers 2003, 2004 (bolt)
- 2100 Series Beam Clamps (bolt)
- JTB Beam Clamps (set screw, jam nut)
- U-Bolts P/N's 0050-0400 (hex nuts)
- U-Bolts P/N's 0500-02000 and 137 Style (hex nuts, raw material for u-bolt)
- Cord Grip Connectors with Mesh (mesh)

*Possible imported component listed in parentheses.*

---

## Imported

- Hex Head Plugs
- Hex Head Reducing Bushings
- Rod Couplings
- Hardware

---

*\*Please note: Any change in a product's country of origin will be updated immediately on our website.*
