NEW!

UNF and UNY Fittings

Gibson Stainless has added UNF and UNY fittings to its hazardous location product line.

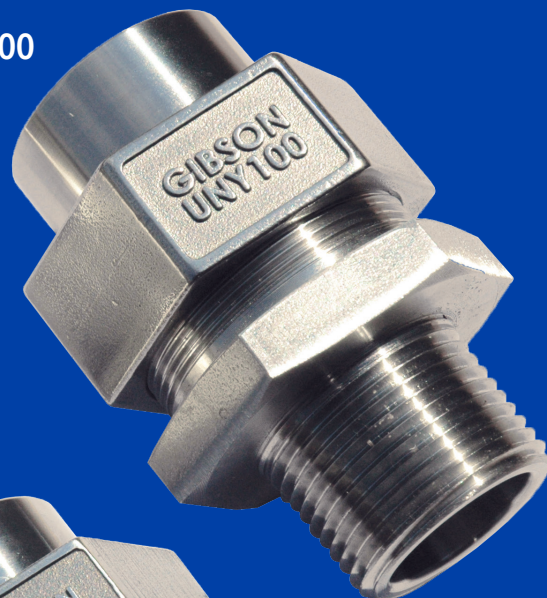

UNF and UNY fittings, also known as explosion-proof unions, are designed for use in hazardous area locations to join threaded lengths of conduit or to connect rigid conduit to devices, boxes, or enclosures.

Gibson Stainless manufactures these fittings entirely in Type 316 SS. Sizes ½" - 1" are currently offered.

In Stock Now and Available for Immediate Shipment.
