PRODUCT BULLETIN

NEW!

FDCC Device Box

Gibson Stainless has added the 3/4" FDCC to the single-gang device box product line.

Device boxes are used to wire devices such as switches and receptacles, act as pull boxes, and connect conduit.

Gibson Stainless now offers the device boxes in nine styles: single-gang FD, FDC, FDS, FDX, FDA, FDCT, FDCC and double-gang FDDX and FDDC.

The FDCC75 is offered in CF8M (316SS) and features three hubs, two on the top of the box and one on the bottom. The box also features mounting tabs and an internal grounding screw.

Size	Part Number
3/4 in.	FDCC75
