PRODUCT BULLETIN

NEW!

Insulated Bushings

Stainless steel insulated bushings are designed for use with threaded conduit to terminate runs and to provide a smooth surface for wire pulls.

Gibson Stainless now offers Type 316 SS insulated bushings in sizes ½" – 2" with a plastic insulating ring.

Grounding Bushings

Grounding bushings are insulated bushings with a stainless steel grounding lug and screw that provide a secure connection for ground wiring.

Gibson Stainless Type 316 SS grounding bushings are offered in sizes ½" – 2" with two different Type 316 SS lug sizes. The smaller lug is designed for wire ranges 4-14 AWG. The larger lug is designed for wire ranges 3/0-6 AWG.

100% Made in USA
